Dear Hiring Manager,

I'm excited to apply for the summer internship at Analog Devices, as this would be my first internship experience, and I am eager to contribute and grow in a professional environment. I am a fast learner, adapt quickly to new challenges, and enjoy working in dynamic teams where I can continuously develop my skills.

Through my personal projects, I have gained some experience working with technical concepts and problem-solving, which has strengthened my ability to approach challenges with curiosity and determination. This internship would be a great opportunity to apply and expand my knowledge while learning from experienced professionals. I'd love the opportunity to learn from your team and contribute in any way I can.

Beyond my technical experience, I have also had the opportunity to collaborate in a team environment during programming competitions. These experiences have strengthened my ability to communicate effectively, work under pressure, and contribute to achieving common goals. I believe these skills will help me integrate well into Analog Devices collaborative work environment.

I look forward to the opportunity to bring enthusiasm and dedication to your team while learning from Analog Devices expertise. Thank you for your time, and I hope to discuss how I can contribute to this internship.

Best regards,

Ruxandra-Maria Cotei
